Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings were received on 4/17/06. These drawings overcome the objections noted in the 9/21/05 office action. However, note the following objection.

The drawings filed 4/17/06 are objected to because reference numeral '30' should not appear in FIG. 1. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claims 1-3, 6-19 and 32-51 objected to because of the following informalities:

The preamble of claim 1 recites "A plug connection *for* fast-fit coupling of two appliances forming part of a medical handpiece system", thus only functionally claiming the appliances. Yet in the body of the claim, the recitations "a first coupling fitting on one of said appliances" and "a second coupling fitting on the other of said appliances" positively claim the appliances, and thus make it unclear as to whether the appliances are being claimed as part of the invention.

For examination purposes, the appliances are considered to be part of the claimed invention.

In claim 1, line 10, ", respectively" should be inserted after "other".

In claim 6, line 5, "fitting" should be inserted after "coupling".

In claim 9, line 3, "in" should be inserted after "ring fitting".

In claim 11, line 2, "fitting" should be inserted after the first instance of "coupling".

In claims 12 and 13, the plurality of media transfer lines and electrical contacts should be related to the projecting element.

The preamble of claim 14 recites "A plug connection *for* fast-fit coupling of two appliances forming part of a medical handpiece system", thus only functionally claiming the appliances. Yet in the body of the claim, the recitations "a first coupling fitting on one of said appliances" and "a second coupling fitting on the other of said appliances" positively claim the appliances, and thus make it unclear as to whether the appliances are being claimed as part of the invention.

For examination purposes, the appliances are considered to be part of the claimed invention.

In claim 14, line 11, “unlock” should be “lock” and “lock” should be “unlock” in order to accurately describe the invention.

In claim 14, line 17, “unlock” should be “lock” in order to accurately describe the invention.

In claim 16, line 5, “fitting” should be inserted after “coupling”.

In claim 17, line 3, “ring member” should be “ring fitting”.

In claim 19, the plurality of media transfer lines and electrical contacts should be related to the projecting element.

The preamble of claim 35 recites “A plug connection *for* fast-fit coupling of two appliances forming part of a medical handpiece system”, thus only functionally claiming the appliances. Yet in the body of the claim, the recitations “a first coupling fitting on one of said appliances” and “a second coupling fitting on the other of said appliances” positively claim the appliances, and thus make it unclear as to whether the appliances are being claimed as part of the invention.

For examination purposes, the appliances are considered to be part of the claimed invention.

In claim 35, line 11, “, respectively” should be inserted after “other”.

In claim 42, line 5, “fitting” should be inserted after “coupling”.

In claim 43, lines 2-3 repeat limitations of claim 35.

In claim 46, line 2, “fitting” should be inserted after the first instance of “coupling”.

In claim 46, line 2, "of" should be "along".

In claims 47 and 48, the plurality of media transfer lines and electrical contacts should be related to the projecting element.

In claim 51, lines 2-3, it is unclear as to what the phrase "and a mating surface" modifies.

Appropriate correction is required.

Allowable Subject Matter

Claims 1-3, 6-19 and 32-51 are objected to but would be allowable if rewritten to overcome the above-noted objections (see ***Claim Objections***).

Response to Arguments

Applicant's arguments, filed 12/27/05, 4/17/06 and 8/1/06 with respect to the claims have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

Conclusion

This application is in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
